PSHE is taught as a whole-school approach to underpin our children's development as young citizens.

Intent: we aim to...

Enable children to be confident, courageous and resilient in all areas of life.

Support the development of the whole child by helping them to understand their individual strengths and how they are developing personally and socially and so develop their self-confidence and self-esteem.

Teach children how to keep themselves safe, physically and emotionally and well equipped for the outside world.

Provide opportunities to learn about rights and responsibilities and global injustice and to appreciate what it means to be a member of a diverse society

Implementation: How we achieve our aims...

Meeting the needs of our children

Our PSHE programme is an integral part of our whole school. Learning activities offer opportunities for the discussion and debate of a number of scenarios building the children's knowledge, understanding, oracy and thinking skills.

British Values and Social, Moral, Spiritual and Cultural (SMSC) responsibilities

Wider provision of PSHE promotes opportunities to link British Values and SMSC responsibilities. British Values are embedded in our PSHE curriculum. Our lessons and assemblies complement key campaigns throughout the year including E-Safety, Parliamentary Week and Mental Health Week.

Democracy and Leadership

Children are part of a democracy and pupil voice is paramount and heard through our democratically elected School Council. Our pupil leader roles include our Head and Deputy Head boys and girls, Eco-Warriors, Digital Leaders and Year 4 buddies.

Impact: How we will know we have achieved our aims...

Children leave Braywood equipped with decision making skills in regard to their wellbeing, health, relationships and economic understanding.

Children can demonstrate how they treat others with kindness and respect. Our whole school vision and ethos enables them to form positive relationships.

Children are resilient and confident with high levels of self-esteem. Wellbeing and good mental health are prioritised.

Children can articulate their own opinions fairly, manage conflict positive and challenge global injustice whilst listening to others' points of views.
